PREFACE

FKP e-Innovation Competition 2022 (Inovas22) is organized by the Research, Publication and Innovation Committee (JKPPPI), Faculty of Leadership and Management. The theme for Inovas22 competition is "**Human Well-being, Sustainable Community**".

This competition encourages lecturers and students to be involved in the generation and development of their own innovative ideas or products. It is a continuation of the previous innovation competition where the main purpose of FKP e-Innovation 2022 is to provide a platform for all innovators at various levels (academic staff, researchers, and students) in USIM to share their findings. This competition also paves the way for all educators at USIM to share ideas and innovative teaching and learning practices to improve human well-being and the sustainable community.

Inovas22 Committee

FOREWORD

Assalamualaikum and peace be upon all.

It is indeed a great pleasure for me to welcome all participants and presenters to INOVAS22 which was organized by the Faculty of Leadership and Management, Universiti Sains Islam Malaysia (USIM), with the theme of Human Well-being & sustainable community. The Innovation Competition 2022 is a continuity series of Innovation Competitions that were held for the first time in 2019.

The purpose of this INOVAS 22 is to offer a collaborative environment for academicians, researchers and practitioners to exchange and share their experiences as well as producing innovations either from research findings or their teaching and learning activities. The objective of this program is to provide the opportunities and serves a platform for academic staff and students to participate in research innovation competitions at an affordable fee rate.

Therefore, I would like to congratulate all the participants and presenters for showing their great interest for INOVAS 22. I also gratefully acknowledge the panel of judges, lecturers and students for their untiring efforts and contribution in organizing INOVAS 22 Faculty of Leadership and Management (FKP), Universiti Sains Islam Malaysia (USIM). Their efforts were crucial for the success of this INOVAS competition.

May Allah (SWT) bless all of you and lead everyone to the path of continuous success and prosperity. Ameen.

Thank you

Assoc. Prof. Dr. Mohd Faizal Bin Kasmani
Dean
Faculty of Leadership and Management
Universiti Sains Islam Malaysia

WELCOME NOTES

Assalamualaikum and peace be upon all.

Praise be to Allah, The Almighty and The Most Glorified. Peace be upon the Prophet Muhammad SAW, his family and companions. May Allah bless them with honour and graces.

Alhamdulillah, we are deeply grateful to Allah SWT because with His abundant grace and permission, the INOVAS22 can be done successfully. I would like to extend my gratitude to the dean's line of the USIM's Faculty of Leadership and Management for the inspiration and initiative to organize this Innovation Day. I also would like to take this opportunity to thank and congratulate the INOVAS22 committee members and all the

parties who have worked hard to make this Innovation Day success.

Not to be forgotten, I would like to extend my congratulation wishes to all the participants of the INOVAS22 Competition. Indeed, this Innovation Day aims to provide an opportunity for academic staff and FKP students to share their ideas and innovations as well as to give exposure and inculcate the spirit of innovation culture to USIM's citizens. In fact, this objective is also extended to all academicians and students from other institutions.

We have learned a lot from the COVID-19 pandemic which has had such a big impact on the whole world. However, in facing this difficult situation, there are innovations that have been produced which enabled people to save lives, and at the same time becoming part of the norm of our lives today. The exploration of new ideas and knowledge from research produces quality innovation that will further become a catalyst for socioeconomic development and the well-being of the Malaysian Family. This very much coincides with the theme of INOVAS 22 'Human Well-being & Sustainable Community'.

Thank you.

Dr Abdul Rashid Bin Abdul Aziz
Director,
FKP e-Innovation 2022 (INOVAS22)
Universiti Sains Islam Malaysia (USIM)
